In re: Patent Application of Wen-Jen Tseng et al. :
: :
: :
Patent No.: 6,459,413 : Issued: October 1, 2002
: :
Appln. No.: 09/758,598 : Filing Date: January 10, 2001
: :
For: MULTI-FREQUENCY BAND ANTENNA : Attorney Docket No. 681954-375
: :

**2nd REQUEST FOR CERTIFICATE OF CORRECTION OF PATENT
FOR APPLICANTS' MISTAKE (37 C.F.R. § 1.323)**

This paper is a resubmission of the "Request for Certificate of Correction of Patent for Applicants' Mistake" filed on March 30, 2009 by Applicants' undersigned representative. In reviewing the application file, Applicants' undersigned representative discovered that no power of attorney (POA) was filed to change the POA to Applicants' undersigned representative. Accordingly, this paper accompanies the necessary paperwork to make such a change.

Attached is PTO/SB/44 (also Form PTO-1050) in connection with the above issued patent.

The issued patent contains a mistake of a minor character which was not the fault of the U.S. Patent & Trademark Office and which inadvertently occurred in good faith.

Column 5, line 54: The word "being" should be deleted. The error occurred in the originally filed application on page 11, line 9 of claim 1, and also appears on line 9 of the amended version of claim 1 on page 3 of the Amendment filed on January 13, 2002.

The deletion of the word "being" does not change the scope of the claims or the meaning of the patent, and merely corrects an obvious grammatical error. The original and revised wordings are both supported by at least page 7, lines 1-7 of the original specification, also,

U.S. Patent No. 6,459,413
2nd Request for Certificate of Correction

column 3, line 63 through column 4, line 2 of the issued '413 patent, repeated below for convenience (underlining added for emphasis):

The feed radiating element 306 of the multi-frequency band antenna has two ends. One end is used as a signal feed point 308 so that the first frequency signal and the second frequency signal can share a same signal feed point 308. The other end 310 electrically connects the first radiating element 302 to the second radiating element 304 and forms a top loaded structure.

Accordingly, this change is believed to be of a minor character.

Correction of the above-identified mistake does not involve changes in the patent as would constitute new matter or which would require reexamination. Accordingly, it is believed that a Certificate of Correction is appropriate and is respectfully solicited.

The fee required by 37 C.F.R. § 1.20(a) of \$100.00 is being paid as follows:

[X] Authorization is hereby made to charge to Deposit Account No. 50-1017
(Billing No. 681954.0375).

[X] Charge any additional fees required by this paper or credit any overpayment in the above deposit account.

U.S. Patent No. 6,459,413
2nd Request for Certificate of Correction

Respectfully submitted,

By:

June 11, 2009
